INTRODUCTION.

IN presenting this Catalogue, we take the opportunity of calling your attention to the facilities which we possess for the production of first-class goods. Our Works are extensive, and cover about 20 acres, and the necessary clay and coal are obtained on our own estate. We have private sidings connecting us with the London and North Eastern ; London, Midland and Scottish, and other Railways, and all goods can be loaded direct from the kiln into the trucks under supervision, without any intermediate cartage or handling, a point which is of great benefit to customers.

Our Standard clay is the finest quality of the well-known Leeds Better Bed Fireclays.

Our GLAZED AND SALT GLAZED BRICKS are unsurpassed for uniformity of shade, regularity of sizes, and truth of shapes, and are impervious to all atmospheric effects and reliable under all conditions. The name "MIDDLETON, LEEDS" on the panel of our bricks is a guarantee that they are of the very best quality and of Leeds manufacture, and that the glazes are free from lead.

Our MAJOLICA GLAZED BRICKS are produced in a variety of colours, and are suitable for internal or external decorative purposes.

Any design and shape of Brick or Tile not shown in this Catalogue can be supplied at short notice.

For calculating the quantities of Bricks per superficial yard, the following may be taken :

FLEMISH BOND—

2 $\frac{7}{8}$ " Bricks—32 stretchers and 32 headers per yard.

3 $\frac{1}{8}$ " " 30 " 30 " "

OLD ENGLISH BOND—

2 $\frac{7}{8}$ " Bricks—24 stretchers and 48 headers per yard.

3 $\frac{1}{8}$ " " 22 " 44 " "

STRETCHER BOND—

2 $\frac{7}{8}$ " Bricks—48 stretchers per yard.

3 $\frac{1}{8}$ " " 45 " "

TERRA-COTTA, "CERAMO," FAIENCE.—These materials are produced in a variety of colours and glazes, and are of first-class quality. Being impervious to all atmospheric effects, they are especially suitable for use in large towns, and many of the lighter colours are indispensable where cleanliness and light are essential.

We employ a staff of expert fixers, and shall be pleased to quote for fixing the above materials.

We shall, at all times, be pleased to furnish designs, estimates, or samples for any of the materials of which we are manufacturers.

For conditions of sale, see inside back cover.

CONDITIONS OF SALE

of Glazed Bricks, etc.

All Accounts are monthly, and are subject to a discount of $2\frac{1}{2}$ per cent. for cash month following delivery.

The standard size of bricks is $9 \times 4\frac{1}{2} \times 2\frac{7}{8}$ ins. or $9 \times 4\frac{1}{2} \times 3\frac{1}{8}$ ins.

Packing in boxes, if required, to be charged extra. Cases are charged for, but credited in full when returned, carriage paid to the Works, in good condition.

For shipping we prefer to pack in boxes.

The term "Seconds" denotes bricks having some imperfections.

We beg to advise customers that we cannot accept cancellation of orders for bricks or other goods when specially made.

When damage or short counts occur in transit, full particulars must be entered in the Railway or Steamship Co.'s books at the time of signing for the goods. Any claims for damages, breakages, or short counts must be notified to us within two days of the truck being cleared, otherwise they cannot be entertained.

When ordering please quote number in Catalogue.
